Trust-Based Relational Intervention® (TBRI®) is an attachment-based, trauma-informed intervention that is designed to meet the complex needs of vulnerable children. While the intervention is based on years of attachment, sensory processing, and neuroscience research, the heartbeat of TBRI® is connection. This training will explore trauma-invested practices to help participants learn new skills to integrate social-emotional learning within their schools and homes.

Presenters:

Belinda Jauregui, LCSW Clinical Counselor

Lindsey Devor, LMFT Trauma-Informed Care Lead Project Specialist

Location:

Virtual learning on Zoom
